TIRUPUR - 641 604.

Date : 28/12/2018

Subject : Endorsement letter(Tamil Kumaran Curing)

Tamil Kumaran Curing (TKC) is one of leading curing and Roll fusing industry in Tirupur.

Due to high volume of job work 24/7 all leading textile industry in Tirupur almost fuel consumption is extremely high. In an effort to decrease the fuel consumption – TAMIL KUMARAN CURING. Presented their technology FEROX FUEL PRODUCTS , that claims to decrease fuel consumption , increase Boiler steam Volume as well as decrease the harmful carbon smoke .

A period of Two months / Two Thousand Litters and Three Twenty running hours was allotted to conduct a pilot on a NIT-TECH KOREA..... the result of this pilot were extremely positive. A savings of 10...% in fuel usage and increased steam volume 10%...% under normal operating condition.

In addition to that decreasing complete harmful (Block) smoke and increasing maintenance interval.

During the above no negative effects accrued our equipment

TKC group strongly recommended Ferox products for your operation
