

FEROX International The latest from Ferox™ around the world

ESAN becomes a major customer of FEROX

FEROX is pleased to welcome the **Turkish company ESAN** as a new **major customer!**

Founded in 1978, ESAN began producing **Clay processing plants** and has since developed into a leading producer and exporter of industrial materials and metallic minerals.

With over **3,500 employees**, **ESAN** is now **the world's largest feldspar producer** and operates four industrial plants and two mines focusing on zinc, lead and gold.

Sustainability plays a central role at ESAN: The company adheres to the highest Environmental standards, minimizes **emissions**, focuses on **efficient resource use** and **waste reduction**, and uses renewable energy. ESAN is certified according to ISO 9001 for quality management and ISO 14001 for environmental management.

With the ability to produce harmful
**To reduce emissions by up to 80%,
FEROX is a perfect fit**
on the sustainability goals
from ESAN. Together we make
an important contribution to a
more environmentally friendly
future!
